

Illegal Vendors

Creative Problem Solving

Brainstorm

- Review the risks of not being able to achieve compliance
- Challenge your old ways of thinking and doing
 - Ask what are my goals?
 - How important are they?
 - Who else might care?
 - Think outside the box

Who might be able to help

- Legal food producers and their representatives, county health environmental and epidemiology specialists, members of academia, county extension, CDC, FDA, various laboratories, local code enforcement, county sheriff/city police, Attorney General Office, state drinking water authorities, local equipment manufacturers, 3-A Standards, state or federal fish and game wardens, USDA Compliance officers, fire marshals, county prosecutors, liquor control board, Process Authorities, ecology, and so on.....
